

# What's New with

# Cisco Webex Meetings

## Video-Centric Experience for Meetings and Events

We've expanded the space used for video meetings, added new layouts, and simplified your meeting controls.

Change your **Video Layout** to control where you view video participants and panels on your screen.

Choose **Floating Panel View** to position any panel where you want it - even on a second monitor.

Access the **Meeting Info** to get details about the meeting.

Meeting controls hide when you're not using them and then re-appear when you move your cursor.

## Centralized Meeting and Event Controls

Get easy access to all essential meeting controls in one place.

- Annotations
- Thumbnail View
- Page Controls
- Zoom Controls
- Fit to Viewer

- Mute
- Share
- Start Video
- Record
- Participants
- Chat
- Leave
- More Options

- | Meetings                    | Events            |
|-----------------------------|-------------------|
| Notes                       | Q&A               |
| Lock Meeting                | Polling           |
| Start Streaming to Facebook | Multimedia Viewer |
| Invite and Remind           | Lock Event        |
| Copy Meeting Link           | Invite and Remind |
| Audio Connection            | Copy Event Link   |

## Sharing

The new sharing options show you thumbnails to help you find the content you want to share more quickly.

Choose **Share Content** to share one of your available screens or applications.

## Video Only Layouts

New layouts let you control how you view your meeting.

**Active Speaker and Thumbnail View**  
Focus on who's talking, but still see up to 5 other participants.

click to switch layouts

**Grid View**  
View up to 25 videos simultaneously.

- Active Speaker Video View
- Grid View
- Active Speaker and Thumbnail View

## Video + Sharing Layouts

New sharing layouts let you choose how to view content.

**Active Speaker and Thumbnail View**  
When someone starts sharing, the focus shifts to the shared content.

**Side-by-Side View**  
Keep all video views together next to the shared content.

**Floating View**  
Move or resize panels to better see what's being shared.
